

Keep Klove signal strong (94.7 & 94.9). Klove serves my family by promoting strong family values, current Christian affairs, and wholesome clean music to listen to. We are in the Bible Belt of Tennessee with thousands of churches and Christians and our church membership alone is over 25,000 members. I personally know that many of these members especially the teenagers listen to this station. There would be much disappointment among parents and youth. It is in the best public interest to keep this station fully powered, otherwise it would result in searching for other Christian stations, not listening at all or upsetting parents at teenagers going to non-Christian stations resulting in disharmony in the family and community.
